## What is Rosetta Code?

[Rosetta Code](#)

*Rosetta Code is a programming chrestomathy site. The idea is to present solutions to the same task in as many different languages as possible, to demonstrate how languages are similar and different, and to aid a person with a grounding in one approach to a problem in learning another.*

## Liberty BASIC on Rosetta Code

[Liberty BASIC Category on Rosetta Code](#)

Our community is engaged in an open source project run by Chris Iverson- [ChrisIverson](#). To help with the project, visit the Liberty BASIC Community Forum and read the discussion on the Open Source board. It can be found here:

## You can help!

There are hundreds of tasks that have not yet been solved in Liberty BASIC. Browse to find one that interests you, write some code, and share it on the forum. Thanks!
