To post code, use code inside double brackets to start the code and code inside double brackets to end the code

```
Print "Hello World"  
End
```

To post code using colored syntax use code format="vb" inside double brackets to start and the and code inside double brackets to end the code

```
n = 10  
For i = 1 to 20  
    Print n ^ 1  
Next i  
Print, "Now that's a pretty big number!"
```

Box made as single element table. How does this work? New line.
