

Lesson Map - Jumpstart for Beginners: Programming Concepts

- [Before You Start](#)
- [Using Jumpstart](#)
- [Programming](#)

- [Liberty BASIC Editor](#)
 - [Hello, World!](#)
 - [Running Your First Program](#)
 - [Saving Your Program](#)
 - [Editor Menu Items](#)
 - [Load and Run](#)
 - [Editor Summary](#)
 - [Editor Hands-on](#)

- [Mainwin Basics](#)
 - [Passing Notes](#)
 - [Ask for Input](#)
 - [Echo the Input](#)
 - [Define Variables](#)
 - [Print Text and Variables](#)
 - [Add Comments](#)
 - [Mainwin summary](#)
 - [Mainwin Hands-on](#)
 - [Get first and last name, show in one line](#)

- [Variables](#)
 - [Types of Variables](#)
 - [Numbers](#)
 - [Strings](#)
 - [Variables summary](#)
 - [Variables Hands-on](#)
 - [Echo name and age](#)
 - [Show number of letters in name, days in age](#)

- Flow control
 - Conditional statements
 - If then
 - Hi-lo game
 - If else end if
 - Do until
 - While wend
 - Select case
 - Flow control summary
 - Flow Hands-on

- Math
 - Numerical variables
 - Math operators
 - Math summary
 - Math Hands-on
 - Budget calculator
 - Savings and interest calculator
- Arrays
 - String arrays
 - Number arrays
 - Array Summary
 - Array Hands-on
- Files
 - File types
 - Sequential file functions
 - Random file functions
 - Binary file functions
 - File summary
 - File Hands-On
- Subroutines
- Functions
- Hands-on
 - Diary
 - Textbase
 - Checkbook
 - Cardfile
- Programming Concepts Summary
 - What you have learned
 - What to learn next
 - How to take the next step
- Demo Program
